GREETINGS FROM THE MAYOR

Another fantastic summer in Saint Andrews –still the best place to live, work, visit or attend school. NBCC has a large enrollment of International Students so there have been challenges with accommodation. If you can help, contact the College (529-5024). Many asset improvements to the Town have been completed as part of our long-term plan. Underground utility replacements in several locations and much needed repaving completed. The Bar Road is now a proper welcoming entrance to Ministers Island. A number of unexpected infrastructure issues delayed utility billings which will now arrive in October. The new ten-year Municipal Plan will be completed by year end as well as the Transportation Master Plan. I wish to thank residents for their patience with traffic during our busy summer. Tourism is still our life blood. There is no doubt that the deer overpopulation continues to affect the quality of life for many. Progress has been slow, but this fall the Nuisance Hunt will be enhanced and Saint Andrews will be bringing a Resolution to the Union of NB Municipalities calling for the Provincial Government to institute a Deer Relocation Programme for all communities so afflicted; a possible resettlement site has been identified that could work for Saint Andrews. Planning is well underway for the new Wellness Centre which could open in Spring 2020. All services now provided will be there along with a Fitness Centre. Our thanks to the Dunn Foundation for making this possible and for their large donation for the Tennis Court refurbishment. Many businesses report having a banner year. Attendance at attractions was up and is continuing into the Fall. Importantly, over the past two years a significant number of new arrivals have decided to call Saint Andrews home. This augurs well for our future! Finally, a shout out to all of our Community Volunteers who make this such a caring place to be.

Respectfully,
Doug Naish, Mayor

SAINT ANDREWS FIRE DEPARTMENT

Fire Prevention Week is October 6th to 12th, 2019

The St. Andrews Fire Department reminds everyone to have their chimneys swept and inspected by a certified technician. Also remember burning yard waste or leaves in town is prohibited. For more information on the Town's burning Bylaw, please contact the Fire Hall at 529-5150. Remember, when you change your clocks this fall, also replace the batteries in your smoke and CO2 detectors. This can save your life! Thirty seconds of fire prevention could make all the difference in the world. Have a fire safe fall!
