Definitions

The following definitions apply to this policy:

"Street End" means the dead end at the shoreline of a "short" (north/south) street within the Town plat, except at Douglas St. (Saint Andrews Yacht Club), and King St. (Market Wharf).

"Budget" means the Annual Budget as approved by Council.

"Council" means the Mayor and Council.

"Town" means the Town of Saint Andrews.

Background

Saint Andrews Town Council strives to maintain its street ends for public enjoyment.

Policy

Unless otherwise stated in a Town By-Law (including the Zoning By-Law and Municipal Plan By-law), the following provisions shall apply to street-ends within the Town of Saint Andrews:

- 1- Street ends shall be maintained in a manner which is conducive to public enjoyment of the space.
- 2- Street ends shall remain clear of visual obstructions, in order to allow for a clear sightline to the sea, where possible.
- 3- If possible, street ends should be grassed and there shall be no other in-ground plantings or permanent structures placed on street ends.
- 4- Where possible and where space allows, a bench and trash can shall be placed at each street end.
- 5- Development shall not be allowed on a street end.
- 6- Street ends shall not be sold.
- 7- Where appropriate, and as determined by Staff, signage will be installed to warn street-end visitors of safety concerns (re: tides, sharp rocks, etc.)

8- Council shall, during its annual budget deliberations, ensure that consideration is given to street end maintenance, including upgrades to seawalls and rip-wrap rock (such as Armour stone), as required.

Given under the Corporate Seal of the Town of Saint Andrews, this policy becomes effective this 13th day of August 2018.

Doug Naish
Mayor

Angela McLean
Chief Administrative Officer
